PROFESSIONAL SUMMARY

Results-driven Operations and Transformation Manager with 8+ years of experience delivering process improvement, CX transformation, and program execution. Recovered \$129M in revenue and delivered 52,000+ annual hours in efficiency gains through Lean Six Sigma, Agile, and analytics-led change. MSc in Digital Analytics with a focus on roles in operations, transformation, and program management in Ireland.

KEY PROJECTS & ACHIEVEMENTS

- Recovered \$129M in potential revenue by leading a global catalogue quality transformation program across 15+ international Amazon marketplaces.
 - Delivered \$464K–\$498K in annualised cost savings and 52,032 labour hours saved through a Lean Six Sigma Green Belt DMAIC project.
 - Achieved 260% productivity improvement and 97%+ defect-free rate across CX operations teams spanning two global markets.
 - Implemented 14+ process automations delivering a 45x productivity uplift in under 12 months; reduced cycle time by 50%.
 - Reduced headcount dependency by 25.8 FTE through operating model redesign — directly recognised with the RBS Einstein Award.
-

PROFESSIONAL EXPERIENCE

Amazon, India (2017-2024) - 7+ years | Global Operations & Program management roles

Program Lead (Senior SME) – CX & Operations Transformation | Apr 22 – Dec 24

- Directed end-to-end operating model redesign for global financial services operations using Lean Six Sigma (DMAIC), achieving \$464K annual cost savings and a 50% cycle time reduction.
- Orchestrated omnichannel transformation across 15+ international marketplaces, facilitating cross-functional workshops with L6+ senior leadership that directly contributed to \$129M revenue recovery.
- Championed AI and process automation scoping, partnering with technology teams to deploy scalable solutions that reduced manual effort by 52,000+ hours annually while improving service reliability.
- Built executive-level KPI dashboards (AWS QuickSight, Tableau) tracking defect rate, throughput, and cost metrics, enabling data-backed decisions for global leadership across multiple time zones.
- Acted as Scrum Master for cross-functional Operations & Tech teams — facilitated sprint ceremonies and backlog refinement, improving sprint predictability and reducing operational defects by 50%.
- Translated complex operational pain points into structured BRDs, user stories, and acceptance criteria, ensuring technical solutions directly supported customer-centric outcomes.
- Mitigated high-stakes operational risk in a regulated environment by implementing phased rollout strategies and validation checkpoints, strengthening process governance across 15+ global marketplaces.

Senior Analyst – Ops & Process Excellence - Mar 2020 – Apr 2022

- Led a 16-member cross-functional team to a 157% productivity improvement, maintaining a 97%+ defect-free rate across two global markets.

- Implemented 14 process automations using digital enablement tools, cutting turnaround time by 50% and delivering a 45x productivity uplift within 12 months.
- Architected multi-dimensional performance dashboards (Power BI, QuickSight) providing market-level insights to 15 stakeholder groups, accelerating data-led decision-making.
- Resolved a high-priority service escalation affecting 36,200 customer records by redesigning SOPs and building scalable bulk-fix workflows, ensuring systemic reliability across 10+ marketplaces.
- Applied Product Owner practices to prioritize delivery backlogs and define acceptance criteria, collaborating with technology stakeholders in hybrid Agile/Waterfall project environments.
- Standardized cross-regional execution through unified SOPs and stakeholder alignment workshops, achieving 5 HC savings through improved operational efficiency.

Analyst – Operations & Continuous Improvement- Aug 2017 – Mar 2020

- Delivered 8 automation initiatives using Excel (VBA/macros) and SQL, eliminating 8+ hours per week of manual effort and improving data accuracy for senior leadership reporting.
- Designed and deployed 90+ standardised process templates and training modules, reducing associate onboarding time across a 30+ member team.
- Trained and mentored 30+ associates, building a high-performing cohort consistently delivering 100%+ against productivity and quality benchmarks.
- Enhanced vendor experience by identifying and resolving recurring template anomalies through end-to-end testing and built-in validations, reducing vendor support queries and improving catalogue accuracy.

CORE SKILLS

Program & Project Management - Agile | Scrum (PSM I) | Waterfall | Hybrid Delivery | Backlog Management | Roadmap Development | Change Management

Process Excellence & Lean - Lean Six Sigma Green Belt (DMAIC) | BPR | FMEA | CAPA | Root Cause Analysis | Capacity Planning | SOPs

Data Analytics & Reporting - SQL | Power BI | AWS QuickSight | Tableau | GA4 | A/B Testing | Predictive Analytics | Excel (VBA/Macros)

Digital & eCommerce Strategy - CRO | UX Audits | Omnichannel Transformation | Digital Transformation | CRM Platforms | CPQ Concepts | Martech

Stakeholder & CX Leadership - Senior Stakeholder Engagement | BRD & User Stories | Cross-functional Leadership | Operating Model Design | Performance Management

Tools & Platforms - Figma | Asana | Lucidchart | Visio | Jira | Google Analytics 4 | Salesforce CRM (conceptual) | Microsoft 365

EDUCATION

MSc, Digital Marketing & Analytics – Dublin Business School, Ireland (Jan 2025 – Jan 2026)

MBA, Marketing & HRM – Hindustan University, India (2015–2017)

BCA, Computer Applications – The American College, India (2012–2015)

CERTIFICATIONS

Professional Scrum Master I (PSM I) | Lean Six Sigma Green Belt | Google Analytics (GA4)

AWARDS & RECOGNITION

Ace Achiever Award | RBS Einstein Award | Extra Mile Award (x6) | First Among Equals (x15)
